**About**

Senior Software Engineer with over 10 years of development experience; Expert in iOS / iPadOS / watchOS / tvOS / macOS platforms; Highly proficient in Swift and Objective-C programming languages; Skilled in leading technical teams and building an internal community of practice; Advocate for Test Driven Development and Reactive programming.

**Recent projects**

 **JioCinema, Viacom18 Media PVT LTD.** Feb 2023 — Present

Apple TV application for the biggest digital entertainment platform in India, focused on live content streaming and deep audience interaction. My key responsibilities here are leading tvOS development team and deploying best practices.

 **Costa Coffee, COSTA LTD.** Mar 2022 — Feb 2023

Customer focused e-commerce application for UK market. My experience on this project included leading iOS development team, technical solutions analysis and close communication with third party services representatives.

 **Košík, Kosik.cz s.r.o.** Dec 2021 — Mar 2022

Application for the groceries delivery service working in Czech Republic. My important highlight from this experience is that the app was developed from scratch using the latest available technologies.

 **George, Erste Group Bank AG** Feb 2021 — Dec 2021

Fintech project and one of the biggest smart banking applications in Europe. This project required extra security in development and perfectly optimised technical solutions.

 **ŠKODA Connect, ŠKODA AUTO a.s.** Dec 2018 — Feb 2021

One of the best automotive applications in the world developed by a huge number of people. My key responsibilities on this project were leading one of the development teams, designing new reactive multi-repo architecture, designing functionality for the first generation of electrical vehicles (Škoda Enyaq iV), developing the CarPlay extension.

 **Energy24, E.ON s.r.o.** Aug 2018 — Dec 2018

Customer oriented mobile application for a popular energy provider in Europe. The application was developed from scratch and incorporated machine learning based predictions for customer consumption.

And dozens of other projects... Nov 2013 — Aug 2018

**Education**

Master of Computer Science; Czech Technical University in Prague, Faculty of Information Technology — Ing. Sep 2018 — Aug 2021

Bachelor of Computer Science; Czech Technical University in Prague, Faculty of Information Technology — Bc. Sep 2014 — Aug 2018
